FITC Labeled Monoclonal Antibody To Mouse MHC Class II

Monoclonal antibody ER-TR 3 is one member of a family of monoclonal antibodies (ER-TR 3, ER-TR 2, ER-TR 1) which detect MHC class II antigens encoded by the murine Ia region of the H-2 complex, corresponding to the human HLA-DR region. They are valuable tools for studying T helper cell interaction with class II positive antigen presenting cells (dendritic cells, B-cells, macrophages). These antibodies also offer new possibilities for studying the development of T helper cells since they also stain stromal cells in the thymus.

Product Number:	T-2117
Clone:	ER-TR3
Host species, isotype:	Rat IgG2b
Quantity:	100µg
Format:	<p>Affinity purified, FITC labelled, liquid</p> <p>Supplied as 1ml solution. This stock solution contains 0.1mg/ml IgG, phosphate buffered saline pH 7.2 (PBS), 10mg/ml bovine serum albumin (BSA) as a stabilizer and 0.09% sodium azide as a preservative.</p>
Stability:	Original vial: 6 months at 4° - 8°C
Applications:	<p>Has been described to work in FACS.</p> <p>Approximate working dilution:</p> <p>Optimal dilutions should be determined by the end user.</p> <p>Suggested positive control: mouse spleen.</p>
Immunogen:	Murine thymic reticulum.
Antigen, epitope:	MHC Class II antigens are heterodimers consisting of one α -chain(31-34kD) and one β -chain (26-29kD).
Antigen distribution	<p>Isolated cellsThe antigen is found on dendritic cells, B-cells and macrophages. The level of antigen detected by ER-TR1, ER-TR 2 and ER-TR 3 differs from strain to strain (see table below).</p> <p>Tissue Sections: The antigen is found on B-cells, interdigitating cells and macrophages in peripheral lymphoid organs but is absent from T-cells. It is also expressed as a fine reticular pattern on stromal thymic cells of the cortex and as a confluent pattern on stromal thymic cells of the medulla.</p>

* Percentage of labelled cells, determined by FACS analysis of spleen cell suspensions

Specificity:

Mouse: cells expressing MHC class II antigens

Other: negative on human, other unknown
