Rabbit anti-Adrenomedullin (ADM) (1-50) (rat) IgG

Each vial contains 400ug of rabbit IgG in lyophilized form, which was purified from whole serum by protein A column chromatography. Upon reconstitution with 200µl of distilled water, the solution contains 0.1M PBS (pH 7.4) and 0.02% thimerosal.

Lyophilized products are stable for long periods when stored at 2-8°C. It is recommended that the reconstituted material be aliquotted and stored at -20°C (or below) for long-term storage. Repeated freezing and thawing should be avoided.

Cross Reaction:

Peptide:	%:
ADM (1-50) (rat)	100
ADM (1-52) (human)	0
proADM-N20(human)	0
pro-ADM-N20(rat)	0
Amylin (human)	0
Endothelin-1 (porcine, rat, human, bovine, dog, mouse)	0
