Rabbit anti-Insulin-like Growth Factor (IGF)-I (24-41) IgG

Each vial contains 400ug of rabbit IgG in lyophilized form, which was purified from whole serum by protein A column chromatography. Upon reconstitution with 200µl of distilled water, the solution contains 0.1M PBS (pH 7.4) and 0.02% thimerosal.

Lyophilized products are stable for long periods when stored at 2-8°C. It is recommended that the reconstituted material be aliquotted and stored at -20°C (or below) for long-term storage. Repeated freezing and thawing should be avoided.

Cross Reaction:

Peptide:	%:
IGF-I (24-41)	100
IGF-I (30-41)	100
rec IGF-I (human)	0
IGF-II (33-40)	0
Insulin (human)	0
C-Peptide (human)	0
