

Catalog # EK-053-07

Standard Size 96 wells

Range 0-100 ng/ml

| Cross Reactivity | Peptide                                              | % Cross-reactivity |
|------------------|------------------------------------------------------|--------------------|
|                  | Pancreastatin (Human)                                | 100                |
|                  | Pancreastatin/Chromogranin A (250-301) Amide (Human) | 63                 |
|                  | Pancreastatin (Porcine)                              | 28                 |
|                  | Pancreastatin (Rat)                                  | 3.5                |
|                  | Pancreatic Polypeptide (Rat)                         | 0                  |
|                  | Pancreatic Polypeptide (Human)                       | 0                  |
|                  | Amylin Amide (Rat)                                   | 0                  |
|                  | Amylin (Human)                                       | 0                  |
|                  | NPY (Porcine)                                        | 0                  |
|                  | BNP-32 (Human)                                       | 0                  |

Sequence Glu - Glu - Glu - Glu - Glu - Met - Ala - Val - Val - Pro - Gln - Gly - Leu - Phe - Arg - Gly - NH2
