Anti Galanin (15-29)(Rat) Serum

Cat. No. Y183

Lot No. 067871212

Description: This antiserum was raised in a rabbit by immunization with a porcine thyroglobulin (pTG) conjugate of synthetic galanin (15-29) (rat) peptide. The product vial contains 50 μ L of the titled antiserum obtained by lyophi-lizing its 0.001 M phosphate buffer (pH 7.0, 0.5mL) solution. It can be used for immunoassay, immunohistoche- mistry or any other immunoreaction with galanin (rat).

Immunogen: Synthetic galanin (15-29)(rat)-pTG conjugate

Host: Rabbit

Amino Acid Sequence of Galanin (15-29) (rat)¹⁾:

2

GWTLNSAGYL LGPHAIDNHR SFSDKHGLT-NH2

Product Form: Lyophilized unpurified serum

Size: $50 \mu L$

Reconstitution: Reconstitute the product with 0.5mL of 0.01M PBS (pH 7.0) to make a 10 fold diluted stock solution. If it is stored in a refrigerator, add moderate antiseptic to the solution (e.g. NaN3 0.1%).

Storage: The product will be stable for over one year if it be stored at -20°C to -80°C until opened. Upon reconstitution, the antiserum solution must be stored at 2°C to 8°C and used within one month. Repeated freezing-thawing should be avoided.

Suggested Working Dilution Range: 1:3,000 (final dilution ~1:21,000) for radioimmunoassay; 1:200-2,000 for immunohistochemistry (frozen or paraffin sections)²⁾. Optimal dilution should be determined by each laboratory for each application.

Specificity (based on radioimmunoassay): Galanin (rat) 100%, galanin (15-29) (rat) 100%, galanin (human) 0%

Positive Control (immunohistochemistry): Rat duodenum

Species Tested: Rat
