

Anti Atrial Natriuretic Peptide (ANP) (Mouse, Rat) Serum

Cat. No. Y330 Lot No. 39150224

Description: This antiserum was raised in a rabbit by immunization with a carrier free synthetic ANP (mouse, rat) peptide. The product vial contains 50 μ L of the titled antiserum obtained by lyophilizing its 0.001M phosphate buffer (pH 7.0, 0.5mL) solution. It can be used for immunoassay, immunohistochemistry or any other immunoreaction with ANP (mouse, rat).

Immunogen: Synthetic ANP (mouse, rat), carrier free

Host: Rabbit

Amino Acid Sequence of ANP (mouse, rat)¹⁾:

Product Form: Lyophilized unpurified serum

Size: 50 μ L

Reconstitution: Reconstitute the product with 0.5mL of 0.01M PBS (pH 7.0) to make a 10 fold diluted stock solution. If it is stored in a refrigerator, add moderate antiseptic to the solution (e.g. NaN₃ 0.1%).

Storage: The product will be stable for over one year if it be stored at -20°C to -80°C until opened. Upon reconstitution, the antiserum solution must be stored at 2°C to 8°C and used within one month. Repeated freezing-thawing should be avoided.

Suggested Working Dilution Range: 1:6,000 (final dilution \sim 1:42,000) for radioimmunoassay; 1:1,000-4,000 for immuno- histochemistry (frozen or paraffin sections). Optimal dilution should be determined by each laboratory for each application.

Specificity (based on radioimmunoassay): ANP (mouse, rat) 100%, ANP (human) 80%

Positive Control (immunohistochemistry): Rat heart

Species Tested: Rat
