

Anti Amyloid β Protein (1-40) (Human) Serum

Cat. No. YA010

Lot No. 305100514

Description: This antiserum was raised in a rabbit by immunization with a carrier free synthetic amyloid β protein (1-40) (human) peptide. The product vial contains 50 μ L of the titled serum obtained by lyophilizing its 0.001 M phosphate buffer (pH 7.0, 0.5mL) solution. It can be used for immunoassay, immunohistochemistry or any other immunoreaction with amyloid β protein (human).

Immunogen: Synthetic amyloid β protein (1-40) (human), carrier free

Host: Rabbit

Amino Acid Sequence of Amyloid β Protein (1-40) (human)¹⁾:

1 40
DAEFRHDSGY EVHHQKLIVFF AEDVGSNKG A IGLMVGGVV

Product Form: Lyophilized unpurified serum

Size: 50 μ L

Reconstitution: Reconstitute the product with 0.5mL of 0.01M PBS (pH7.0) to make a 10 fold diluted stock solution. If it is stored in a refrigerator, add moderate antiseptic to the solution (e.g. NaN₃ 0.1%).

Storage: The product will be stable for over one year if it be stored at -20°C to -80°C until opened. Upon reconstitution, the antiserum solution must be stored at 2°C to 8°C and used within one month. Repeated freezing-thawing should be avoided.

Suggested Working Dilution Range: 1:1,000 for immunohistochemistry. Optimal dilution should be determined by each laboratory for each application.

Specificity (based on enzyme immunoassay): Amyloid β protein (human) specific.
