

Anti human PPAR gamma common mouse monoclonal antibody

PPAR gamma: Peroxisome Proliferator-Activated Receptor gamma

| Code No | PP-A3409A-00 |
|---------------|-------------------|
| | old No. 2ZA3409AH |
| Clone No. | A3409A |
| Lot. | A-1 |
| Concentration | 1 mg/mL |
| | |

Ig Class G2a

100 uL

Description

Volume

Peroxisome proliferator-activated receptor gamma (PPARg; NR1C3) is a member of orphan nuclear receptor. Oxidized metabolites of linoleic acid. 9hydroxyctadienoic acid (9-HODE) and 13-HODE are activators and ligands of PPARg. PPARg is expressed in white adipose tissue, intestinal mucosa, colon, spleen, monocytes, macrophages, retina, cartilage, osteoclast and skeletal muscle. PPARg plays important roles in lipid and glucose metabolism, and have been implicated in obesity-related metabolic diseases such as hyperlipidemia, insulin resistance, and coronary artery disease. Three members were called PPARa, b, g. Three N-terminal isoforms, called g1, g2 and g3, are known to arise by alternative splicing and promoter usage from the PPARg gene. RXR is an obligate partner for PPAR.

| Genbank | L40904 |
|---------|--|
| Origin | Produced in BALB/c mouse ascites after inoculation with hybridoma of mouse myeloma cells (NS-1) and spleen cells derived from a BALB/c mouse immunized with Baculovirus-expressed recombinant human PPAR gamma1 (3-108 aa) . |

Specificity

This antibody specifically recognizes human PPAR gamma1 and 2 and cross reacts with mouse and rat

PPAR gamma1 and 2.

This antibody does not recognize human PPAR alpha

and delta

Purification Ammonium sulfate fractionation

Formulation Physiological saline with 0.1% NaN3 as a preservative.

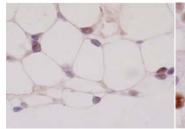

Application / Recommended Concentration

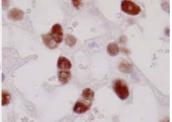

In order to obtain the best results, optimal working dilutions should be determined by each individual user.

| Western Blot | 1 ug/mL |
|-------------------------------|----------------|
| Non reducing Western Blot | Not yet tested |
| ELISA | 12ng/mL |
| Immunoprecipitation | Decide by use |
| Supershift Assay | Decide by use |
| Chromatin immunoprecipitation | Decide by use |

Immunohistochemistry

10µg/mL

Rat adipose cell

Rat placenta

Storage

Store at 2 - 8 °C up to one month. For long-term storage, the solution may be frozen in working aliquots. Repeated freezing and thawing is not recommended. Storage in a frost-free freezer is not recommended.
